

Readme File

- 1) The folder “Guide2MyLibrary” contains the following three files:
 - i Guide2MyLibrary (a browser starter file)
 - ii Guide2MyLibrary.swf (a Shockwave/Flash file)
 - iii Readme.doc (a Microsoft Word Document)
- 2) In order for you to view this tutorial, you must have the Flash Player already installed in your computer. If this is not the case, then you have to download the Flash Player (Version 9) **for free** from the Adobe’s website.
- 3) The URL of this site is: <http://www.adobe.com/products/flashplayer>. Go to this site and then follow the instructions given to download and install the player. It is a very straight forward process. Once downloaded, Adobe will with your consent install the player for you automatically. It will also tell you when the player has been installed successfully in your computer.
- 4) To begin the Tutorial, just double click on the browser starter icon in your Windows Explorer Directory. The tutorial will open out in your computer screen automatically.
- 5) Remember to click the Function key F11 on your keyboard in order to view the presentation in full screen mode.
- 6) If you have questions or need help, please email us at library@wou.edu.my
- 7) Enjoy the tutorial.
